CLASSROOM BUCKETS

A project for parent groups

COSTS

"We worked with our local independent hardware store – he gave us a good price and made a bulk order" Vancouver parent

- Leather work gloves
- Latex gloves
- Crowbar
- Safety goggles
- First Aid kit
- Disposable dust masks
- Flashlight
- Glowsticks
- Space blankets
- Tarp
- Whistle
- Duct tape
- Scissors
- Plastic bags
- Antibacterial hand wash

**TOTAL COST
PER BUCKET**

This is a practical idea that support teachers and kids in schools in the event of an earthquake.

STEPS

1. Discuss the project with your group. You may wish to get feedback from school staff and teachers as well.
2. Form a working group.
2. Decide what you want to put in your bucket. The list here is standard , but you may want to add or change items. There is more information on item purpose at www.fsssbc.org .
3. Source the items. Price the items and find the cost per bucket.
4. Decide how many buckets you will need for classrooms, library, lunchroom, etc.
5. Purchase, store and assemble the classroom buckets.
6. Deliver them to the classrooms – *Congratulations!*
7. Be sure to send a report and photos to the project coordinator at pfahrni@shaw.ca so we can add your story to the reports of parents who have completed the project at their school.
